Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Synchronous as well as Asynchronous

Brief describe the provision in LMS to be used by HEI :-

Following provisions are made in the LMS (Learning Management System) for the counselling of students: • Online Induction sessions: These sessions are conducted for the newly enrolled learners through LMS/ video-conferencing for orienting them regarding the system and processes of the university. • Live Interactive Classes through LMS: These interactive multilingual sessions are delivered by the expert faculty through LMS by using innovative pedagogical tools including relevant PPTs, demo videos, MOOCs, etc. Instruction Plans are developed for various courses and shared with the students online through LMS before the start of live interactive classes, so that faculty and students are aware of the things to be delivered during the live video lectures. • Virtual Academic & Professional Enhancement Workshops: These workshops are conducted virtually for learners to enhance their academic, employability and communication skills. • Online Live Chat facility: LMS also has the provision for the learners to interact with the faculty and peers through online live chat facility. • Social Media Platforms: Various learner engagement activities involving experts of the concerned fields are also conducted through popular social media platforms like Facebook, Instagram, Twitter, YouTube etc., links for which are available on LMS. • Relationship Management Cell: Learners can also get in touch with counsellors of Relationship Management Cell of the university through various modes like emails, web chat, online Relationship Management System available on LMS and walk-in window at university. Links/ details of all these channels are available on LMS. • Academic Resources: Academic Counselling is also to be provided through academic resources like SLMs, Programme Guides, Assignments/Quizzes, PPTs, Open-Access Resources/ MOOCs etc. These are made available to students through the Learning Management System.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

| | |
|--|---|
| Assessment mechanism | Continuous Assessment is done through the graded assignments with subjective analytical questions for each course to be attempted by the students through online Learning Management System. The number of assignments depend upon the credit weights of the course. The marks scored by the students in continuous assessment are added to the End Term Exam marks to generate the final grade of the learner in that course which is reflected in the online academic transcript available on LMS. The end semester assessment is done based on the Exam conducted by the University. Learners can access their date sheet, admit card, result, marks and grade cards through their LMS account. |
| Identified technological interface and interoperability | ODL and OL programmes are accessible through a user-friendly Learning Management System using user credentials. The user-friendly system interfaces are mobile and web responsive and provide ease of navigation. The learning material is made available in text and audio-video formats. The systems have been created in a web browser to support font enlargement, ease of navigation and 24x7 online access with compatibility to third party tools like Google translator for translating words in different languages, Speech-to-Text Google tool to convert speech to text etc. to meet accessibility standards for interoperability and access for learners with special needs. |
| Learner's Authentication Requirements | During admission, the LMS captures the learners' authentication data as the applicants need to submit the scanned copies of their Aadhaar or Govt. approved photo identity card and Residential Proof. Admission is subject to the verification and authentication of the submitted documents. Learners can access their respective LMS accounts through user credentials provided to them and various online checks and monitoring mechanisms are in place to monitor their academic integrity and synchronous /asynchronous participations in various academic activities. |
| Learner Registration - through a web application | Robust Online mechanism is available on website for Learner Registration which is integrated with LMS. Applicant needs to sign up in online enquiry form available on the website to receive the credentials for logging in the online admission application form. The mobile number is authenticated through OTP (One Time Password) verification. Applicant needs to provide the details and upload the required documents under Personal and Academic Details tabs of the online admission application form. Based on the verification of the documents submitted and eligibility check, the applicant is provided the link/ interface for fee payment. On successful receiving of fee, applicant is enrolled in the applicable programme and his/ her enrolment number and LMS log-in credentials are generated and shared with him/ her. |
| Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting | Learner's engagement is ensured through following initiatives: <ul style="list-style-type: none"> • Online Induction sessions: These sessions are conducted for the newly enrolled learners through LMS/ video-conferencing for orienting them regarding the system and processes of the university. • The engaging Learning Management System (LMS): The same can be accessed through various gadgets like desktop, laptop, tab, smart mobile phone etc. • Instruction Plans: Instructional plans are developed for various courses and shared with the students online before the start of live interactive classes, so that faculty and students are aware of the things to be delivered during the live video lectures. • Live Interactive Classes through LMS: These interactive multilingual sessions are to be delivered by the expert faculty through LMS by using innovative pedagogical tools including relevant PPTs, demo videos, MOOCs, etc. • Online Attendance system: Online Attendance system for live interactive classes is developed with provision for learners to keep track of their attendance online. • Online polls and feedback sessions: These are conducted for students during live sessions. • Online Live Chat facility: LMS also has the provision for the learners to interact with the faculty and peers through online live chat facility. • Social Media Platforms: Various learner engagement activities involving experts of the concerned fields are conducted through popular social media platforms like Facebook, Instagram, Twitter, Youtube etc., links for which are available on LMS. • Self-assessment provisions and Assignments: Learners are provided opportunities to test their knowledge and understanding of the subject through self-assessment activities and graded assignments, which are provided for various courses through LMS. • Special focus classes: These classes are organized online to help the learners to have better understanding of difficult courses and concepts. • Feedback based quality enhancement measures: Feedback on programme quality and other activities, processes etc. is taken from the learners through LMS and requisite quality improvement/enhancement measures are taken on the basis of feedback analysis. • Curricular and Co-curricular Activities: Learners are given opportunities to attend/ participate and compete in various curricular and co-curricular university events like: Academic & Professional Enhancement workshops Special classes or doubt clearing sessions Convocation Placement drives Sports meet Inter-school cultural competitions etc. Learners can participate in the same virtually as well as physically as per the nature of the event. They are also eligible to attend national and international level conferences, seminars, exhibitions, youth-fests, guest-lectures etc. • Virtual professional enhancement workshops: These workshops are conducted virtually for learners to enhance their employability and communication skills. • Relationship Management Cell: Learners can also get in touch with counselors of Relationship Management Cell of the university through various modes like call centre, emails, webchat, online Relationship Management System available on LMS and walk-in window at university. Links/ details of all these channels are available on LMS. • Analytical Reports: Online LMS is equipped with analytics and auto reports generation pertaining to various aspects of programme delivery and learner engagement which include usage reports for various features, learners' attendance reports in online live sessions, learners' performance reports for various assessment activities etc. In addition, some other administrative reports/ analytics which would be fetched from LMS backend include session wise admission master, Student search, Specialization report, Programme Transfer report etc. |
| Payment Gateway –using Digital Payment system | Internet Banking, Debit Card, Credit Card, Bhim UPI, Paytm, Google Pay etc. are the available Payment gateways/digital payment systems to facilitate learners to pay their fee online. |

|--|--|
| Tracking the delivery of a Course or programme | Delivery of the programme is done through Learning Management System accessible through desktop as well as Mobile App as per the academic calendar (important dates) to be shared with the learners through website and LMS before the beginning of the session. Academic support and LMS team ensure the timely conduct of various delivery components and availability of academic resources for the various courses of the concerned programme. Learning management System tracks the delivery of Programme including learner's engagement, assessment, and results. Automated analytical reports extracted by suitable analytical tools help to use these insights for tracking the programme delivery. Faculty members also make sure to adhere to norms for Delivery of Courses in ODL and OL Mode. Learners are made aware about the upcoming academic activities through LMS announcements and SMS. Learners' attendance in the live lectures is captured and reflected in the corresponding interface. Learners are graded based on various assessment activities and the course-wise grades are made available through online academic transcript on LMS which is updated regularly as learners progress through various semesters of the programme. |
| Technical Know-how or Skills Requirements | Faculty and other staff involved in the planning, designing, development and delivery of ODL and OL programmes are well qualified and have the requisite technical knowledge, skills and competencies for enhancing the effectiveness of learning. Faculty and staff development workshops, training and orientation programmes are regularly conducted for continuous upgradation of skills of faculty and staff, facilitating the embracing of newer methodologies and Information and communication technology tools for enhancing the development and delivery of the ODL and OL Programmes. Staff and faculty members are also encouraged and incentivized to enhance their technical know-hows and skills by enrolling in the relevant MOOCs and training programmes offered by the concerned institutions. |

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

Online Learning Management System: Powered by its user-friendly online Learning Management System (LMS) – learn@arkajainiversity, AJU is strengthening quality and efficient delivery of higher education for learners. LMS offers 'Any Time Any Where' strong and secure online connection that links AJU and its learners located at different geographical locations. It provides flexible learning opportunities by overcoming separation of teacher and learner using internet, e-Learning Materials and full-fledged programme delivery through the internet using technology assisted mechanism and resources. Based on enterprising web portal technology, learn@arkajainiversity truly automates various administrative and academic processes of Online Education and minimizes the shortcomings of physical distances by providing 24X7 accessibility through its various useful features. Objectives of LMS: learn@arkajainiversity is a web-based ERP Project that can be accessed from any part of the world with the help of any standard web browser and serves the following objectives: • To monitor different functions and processes for better control, analysis and projection of data through Data Mining. • To act as an Information Hub for the learners by providing them personalized learning environment and access to various academic operations so that they can learn as per their convenience along with their other commitments. • Providing access of e-Connect to students for various student related academic operations. • To make the University 'paperless' and 'Eco Friendly' through its Online Tools. • To expand its reach across the Globe by catering to varied needs of global users. • To make AJU Distance and Online Education, a Transparent and Efficient System with its Innovative tools. Scalability of LMS: The LMS is very scalable and can handle lakhs of distinct users. Presently the storage of the system is 20 Tera Bytes which is scalable to 180 Tera Bytes. The system is scalable in terms of accessibility from any kind of device like mobile phones, tablet PC, desktop etc. The central Enterprise Switch from Nortel is scalable to 720 Gbps of network throughput. It has ability to use different delivery media including online and computer mediated communication and Information and Communication Technology enabled learning. Various Modules of LMS: The LMS has different modules which support entire online mode process starting from learners' registration to further progression of learners at all the stages. • Admission Module: Its Online Admission Module helps in storing and maintaining the centralized pool of admissions related information for further accessibility, verification and rectifications at different stages with the provisions like Enquiry, Follow-up, Online Admission Application, Document & Fee Verification and Various automatic reports and auto SMS. Further this information is accessed and utilized with other modules providing customized information to the students like student's personal information, contact details, course & medium details, re-registration details, specialization details, fee details etc. through Announcements, Personalized Messages, Running Reminders, and Flashing Messages with provision of proper back up or history of data. • Feedback : Through Feedback Form, learners can provide constructive feedback for improvement in programme delivery through their customized LMS account • Relationship Management System: This is used for handling learners' queries. It provides an online facility for submitting grievances and tracking their status. • Online Live Chat facility: LMS also has the provision for the learners to interact with the faculty and peers through online live chat facility. • Pool of Resources: LMS also has a provision to provide centralized pool of important Academic and Administrative Resources under this module, which can be accessed by different users at any time as per their convenience. • Examination Module: Examination module is to provide: Online Admit Card, Date Sheet, Grade Card, Current CGPA/ TGPA and Other examination related sub modules providing easy access and user-friendly environment to the learners. Privacy of Data: Online Sharing of Data, Records, Information, Updates and Resources help in fast and better communication among users. The system purely functions on Secured Socket Layer (SSL) for complete session from 128 – 256 Bit Encryption ensuring safety and privacy of the data. Server Load: Issue of load on the Server is catered with the help of proper architecture and setting up clusters of servers at the backend. In order to ensure smooth functioning of the system, the bandwidth is increased. Data storage and backup: This issue is taken care of with the help of SAN/NAS storage and automated backups. Proper backup policy is in place to take the backup(s) and to handle the situation in case of any eventuality.
